

LIMESTONE

WE SUPPLY HIGH-PURITY INDUSTRIAL LIMESTONE SUITABLE FOR MULTIPLE CONSTRUCTION AND INDUSTRIAL APPLICATIONS.

The material is sourced from large-scale quarries with high production capacity and consistent quality.

LIMESTONE

LIMESTONE CHEMICAL COMPOSITION

Typical Chemical Analysis	
Component	Value (%)
CaCO ₃	96.85
CaO	54.41
SiO ₂	0.76
MgO	0.59
R ₂ O ₃	0.60
Chlorides (Cl)	0.08
Sulfur (S)	0.03
Phosphorus (P)	0.04
Loss on Ignition (I.L)	43.05

LIMESTONE PHYSICAL PROPERTIES	
Property	Value
Density	2.31 ton/m³
Apparent porosity	14.0 %
Compressive strength	~241 kg/cm²

LIMESTONE APPLICATIONS

Applications

- Cement manufacturing
- Concrete production
- Asphalt mixtures

Suitable for continuous industrial use and large-volume contracts.

LIMESTONE CHEMICAL COMPOSITION

SUPPLY CAPABILITY

Supply & Capacity

- Quarry production capacity: millions of tons annually
- Consistent long-term availability
- Stable quality control
- Export-ready logistics

QUALITY ASSURANCE

Quality & Documentation

- Certificates of Analysis (COA)
- Physical & chemical test reports
- Origin & export documentation

All materials are supplied with full traceability.
